

Wendy Logan - Reiki Master & Angelic Channel
— PACIFIC GROVE, CA —

The following disclosure is intended to fulfill the requirements of the California Senate Bill # SB577, passed in September 2002, affecting all non-licensed helping professionals offering alternative health care.

- ✎ A reiki practitioner or energy therapist and/or facilitator is not a licensed physician. I am not qualified to diagnose treat or prescribe for physical or mental conditions.
- ✎ The use of Reiki, Energy therapies and Chakra balancing and facilitation is alternative and complimentary to healing arts services licensed by the State of California.
- ✎ The services offered are not licensed by the State of California but the practitioner is a certified Usui Reiki Master, Spiritual Healer and Energy Healer.
- ✎ My services offered include Usui Reiki, Energy Therapy, Aromatherapy and Chakra readings and balancing for spiritual growth, self-healing and learning enlightenment, exploring life purpose, personal growth and discovery. I have been facilitating personal development and transformation through these mediums since 2005. None of these services are intended to be a substitute for medical or psychological care. Any issue beyond the scope of the practitioner will be referred to a licensed practitioner.
- ✎ It is the goal of the practitioner to provide clients with a safe, non -judgmental and supportive environment where clients can gain insights into established patterns of behaviors and work towards transformation and personal growth. Because all of the services and modalities are based on the empowerment model, all clients do their own work and healing with the guidance of a co-creative facilitator.

Confidentiality is respected and honored.

I have read and understand the disclosure.
